

REMARKS/ARGUMENTS

The examiner has allowed claims 1-37. Claims 8-15, 22-24, 33-34 and 38 have been canceled. The application is in condition for allowance with claims 1-7, 16-21, 25-32 and 35-37 remaining in the case.

In response to the Office Action of Dec. 13, 2004 Applicant requests re-examination and reconsideration of this application for patent pursuant to 35 U.S.C. 132.

Objections to the Drawings

The Examiner has objected to the drawings in that the subject matter of claims 5-7 is not shown in the Figures. However, the switches claimed in these claims is shown as reference numeral 68 in Fig. 4 and described on page 22, lines 1-3. The specification is directed to one of ordinary skill in the art and these standard switches are well known in the art. It is also well known that the switches may be used as substitutes for each other depending on the application. The drawings show the general location of the switch(es) within the combination. Such a showing is considered to be sufficient.

The subject matter of claims 8-15, 22-24, 33-34 and 38 is disclosed in the specification but not included in the drawings. Since these claims are all dependent on broader claims, they have

been canceled as additive. The absence of these claims obviates the objection to the content of the drawings.

Rejections under 35 USC 112

Claim 38 stands rejected as unsupported by the disclosure. The claim has been canceled.

SUMMARY

In light of the foregoing remarks and amendment to the claims, it is respectfully submitted that the Examiner will now find the claims of the application allowable. Favorable reconsideration of the application is courteously requested.

Respectfully submitted,

C. Fred Rosenbaum
